

LYNDELL T. DOBLUIS

Software Developer | IT Head / IT Operations | React Native & Full-Stack Engineer

Davao City, Philippines | +63 921 233 7636 | lyndell.dobluis@gmail.com | linkedin.com/in/lyndelldobluis |
Open to Local & Remote Roles

PROFESSIONAL SUMMARY

Software developer and former IT Head with 15+ years of hands-on experience across web, mobile, and backend development, plus real-world experience leading a small IT team. Known for building things end-to-end — from React Native mobile apps and REST APIs to Firebase-powered real-time features — for clients and teams in the Philippines, the United States, and Saudi Arabia. Comfortable wearing both hats: writing production code and managing IT operations, vendors, and day-to-day technical decisions. Recently ran an independent small business, sharpening skills in planning, budgeting, and problem-solving that carry directly into IT leadership and Agile project delivery. Has also integrated AI coding assistants such as Claude into the daily workflow — using them to speed up development, debug faster, generate documentation, and prototype app features — and is now looking to bring that full mix of technical depth and leadership experience to a new team.

CORE SKILLS

Languages & Frameworks: JavaScript, TypeScript, React, React Native, React Navigation, Hooks

State Management: Redux, Redux Saga, Redux Toolkit, Context API, React Query

Backend & Integrations: REST API design & integration, Firebase (Auth, Push Notifications, Realtime Chat), Socket.io, WebRTC (Agora.io), MySQL

AI-Assisted Development: Claude (Anthropic) for coding, debugging & documentation, GitHub Copilot-style AI pair programming, AI-assisted app prototyping & feature scaffolding

IT Operations & Leadership: IT team leadership, vendor & supplier coordination, budgeting, operations management, technical decision-making

Testing & QA: Jest, unit testing & code coverage, Postman / Advanced REST Client, manual functional testing

Deployment & Tools: Android Studio, Xcode, TestFlight, Play Store APK builds, Git (GitHub, GitLab, Bitbucket), Jira, Trello, Agile/Scrum

PROFESSIONAL EXPERIENCE

Owner / Operator | *Independent Small Business — Davao City, Philippines* Aug 2024 – Present

- Founded and ran a small business end-to-end — operations, budgeting, supplier and vendor coordination, and customer service.
- Applied a structured, process-driven approach to planning and problem-solving, the same discipline that translates directly into Agile project and IT operations management.
- Kept technical skills sharp through personal projects, continuing hands-on work with React Native, Firebase, REST APIs, and AI-assisted coding tools, in preparation for a return to full-time development.

Lead Developer | *MyShed Company — Davao City, Philippines* Jan 2024 – Jul 2024

- Led web application development for the team, using React with Context API and React Query for state management and data fetching, plus a shared library of reusable UI components.
- Designed and maintained MySQL database structures to support core application features.
- Partnered with backend engineers to define REST API contracts and validate JSON payload structures ahead of integration; produced API mockups to align teams before implementation.
- Oversaw unit testing and code coverage practices (Jest) to maintain code quality across releases.

Software Engineer | *Fixlers Company — Spring Valley, NY (Remote)* Dec 2022 – Jul 2023

- Built and maintained React Native features — reusable components, navigation flows, and Redux-based state management — for a US-based client.
- Created API mockups and coordinated endpoint design with backend developers ahead of feature implementation.
- Performed manual functionality testing and endpoint verification to ensure reliable integration across releases.

App Developer | *AK Launch Co. — Passaic, NJ (Remote)* Feb 2022 – Nov 2022

- Developed cross-platform mobile features in React Native, contributing to releases on both Android and iOS.
- Set up Firebase push notifications and phone authentication for a virtual, US-based engineering team.

Software Engineer | Yondu Inc. — Taguig City, Philippines Nov 2020 – Mar 2022

- Developed a mobile banking application within an Agile team, contributing to core features and ensuring secure, reliable delivery.
- Used Jira for sprint tracking and coordinated closely with the team on releases.
- Recognized as a 2021 Team Awardee for contributions to product delivery.

React Native Developer | Al Wasim Information Technology — Riyadh, Saudi Arabia May 2020 – Nov 2020

- Developed React Native mobile application features for enterprise clients in the Saudi Arabian market.
- Directed integration of Firebase phone authentication and push notifications, plus real-time features using Socket.io and WebRTC (Agora.io).

IT Head / Backend Developer | BinhiMedfi Inc. — Cagayan de Oro City, Philippines Aug 2017 – Oct 2018

- Led the IT function for the company — managing backend systems, technical decisions, and day-to-day IT operations.
- Directed backend development while overseeing infrastructure, vendor coordination, and IT support for the wider team.

Earlier Experience

- Associate Web Developer — Fligno Softwares Inc., Cagayan de Oro City | Apr 2019 – May 2020
- System Developer — PRL BPO Technology Corp., Davao City | Nov 2018 – Mar 2019
- SEO Specialist — Thinklogic Marketing Inc., Cagayan de Oro City | Nov 2016 – Mar 2017
- Computer Programmer — Sadeem Harafi Co., Jubail, Saudi Arabia | Jul 2012 – Oct 2016
- Freelance SEO Contractor — oDesk | Oct 2010 – Jul 2012
- Junior Programmer — Syntactics Inc., Cagayan de Oro City | Mar 2008 – Feb 2012 (2009 Employee of the Year)
- Internal Programmer — Harvest LLC, Cagayan de Oro City
- On-the-Job Trainee — Link2Support, IT Park, Cagayan de Oro City | Summer 2007

EDUCATION

Bachelor of Science in Computer Science (Undergraduate coursework, through 4th year) — STI College Mindanao Inc., Cagayan de Oro City | 2003 – 2008

Secondary Education — Capitol University, Cagayan de Oro City | 2002 – 2003

ACHIEVEMENTS

- 2021 Team Awardee — Yondu Inc.
- 2009 Employee of the Year — Syntactics Inc.
